Subject: Need your evaluation for first year of TASC contract
Importance: High

Hi everyone.

Annual contractor performance evaluations are required for the TASC contract. Currently, an evaluation is underway for Skeo's performance under the TASC contract for the period between **June 22, 2013 through June 21, 2014**. Since most TASC support takes place in the regions and relies heavily on the involvement of regional staff, I need your feedback to fairly evaluate Skeo's performance. At a minimum I need all project leads to provide feedback on the support that Skeo has provided to you and your Superfund communities during the June 22, 2013 through June 21, 2014 timeframe. I welcome receiving input from multiple people involved at the same site, but I absolutely need **at least one evaluation per site**. The list of sites covered under this evaluation can be found below. I'm not sure I have captured all the project leads in this e-mail, so I am asking that the **TASC Coordinators ensure that this e-mail request is distributed to the key people associated with the sites** listed below.

When you complete the evaluation, please include written information supporting each of your rating numbers. If you have any specific examples/antidotes that can be provided, these would be very helpful as supporting information.

I will need your responses no later than **January 2, 2014**. I will combine all responses into a single evaluation that will be input into the contractor performance database.

Please let me know if you have any questions. Thanks for your help.

Freya
